GENERAL QUESTIONS (Explain "Yes" answers at the end of this form. Circle questions if you don't know the answer.)	Yes	No
1. Do you have any concerns that you would like to discuss with your provider?		
Has a provider ever denied or restricted your participation in sports for any reason?		
3. Do you have any ongoing medical issues or recent illness?		
HEART HEALTH QUESTIONS ABOUT YOU	Yes	No
Have you ever passed out or nearly passed out during or after exercise?		
5. Have you ever had discomfort, pain, tightness, or pressure in your chest during exercise?		
6. Does your heart ever race, flutter in your chest, or skip beats (irregular beats) during exercise?		
7. Has a doctor ever told you that you have any heart problems?		
 Has a doctor ever requested a test for your heart? For example, electrocardiography (ECG) or echocardiography. 		

HEART HEALTH QUESTIONS ABOUT YOU CONTINUED)	Yels	No
9. Do you get light-headed or feel shorter of breath than your friends during exercise?		
10. Have you ever had a seizure?		
HEART HEALTH QUESTIONS ABOUT YOUR FAMILY	Yes	No
11. Has any family member or relative died of heart problems or had an unexpected or unexplained sudden death before age 35 years (including drowning or unexplained car crash)?		
12. Does anyone in your family have a genetic heart problem such as hypertrophic cardiomyopathy (HCM), Marfan syndrome, arrhythmogenic right ventricular cardiomyopathy (ARVC), long QT syndrome (LQTS), short QT syndrome (SQTS), Brugada syndrome, or catecholaminergic poly- morphic ventricular tachycardia (CPVT)?		
 Has anyone in your family had a pacemaker or an implanted defibrillator before age 357 		

BONE AND JOINT QUESTIONS	Ves	No	MEDICAL QUESTIONS (CONTINUED)	Yes	No
14. Have you ever had a stress fracture or an injury			25. Do you worry about your weight?		
to a bone, muscle, ligament, joint, or tendon that caused you to miss a practice or game?			26. Are you trying to or has anyone recommended that you gain or lose weight?		
15. Do you have a bone, muscle, ligament, or joint injury that bothers you?			27. Are you on a special diet or do you avoid certain types of foods or food groups?		
MEDICAL QUESTIONS	Yes	Иo	28. Have you ever had an eating disorder?		
16. Do you cough, wheeze, or have difficulty breathing during or after exercise?			FEMALES ONLY	Yes	∍No.
17. Are you missing a kidney, an eye, a testicle (males), your spleen, or any other organ?			29. Have you ever had a menstrual period? 30. How old were you when you had your first menstrual period?		L .
18. Do you have groin or testicle pain or a painful			31. When was your most recent menstrual period?		
bulge or hernia in the groin area? 19. Do you have any recurring skin rashes or rashes			32. How many periods have you had in the past 12 months?		
that come and go, Including herpes or methicillin-resistant Staphylococcus aureus (MRSA)?			Explain "Yes" answers here.		
20. Have you had a concussion or head injury that caused confusion, a prolonged headache, or memory problems?					
21. Have you ever had numbness, had tingling, had weakness in your arms or legs, or been unable to move your arms or legs after being hit or falling?					
22. Have you ever become III while exercising in the heat?					
23. Do you or does someone in your family have sickle cell trait or disease?					
24. Have you ever had, or do you have any problems with your eyes or vision?			No. of the second secon

PREPARTICIPATION PHYSICAL EVALUATION 2020-2021

OHSAA FORM 2 of 4

2020-2021 Ohio High School Athletic Association Eligibility and Authorization Statement

This document is to be signed by the participant from an OHSAA member school and by the participant's parent.

I have read, understand and acknowledge receipt of the OHSAA Student Eligibility Guide and Checklist

https://www.ohsaa.org/Portals/0/Eligibility/OtherEligibilityDocs/EligibilityGuideHS.pdf which contains a summary of the eligibility rules of the Ohio Hig School Athletic Association. I understand that a copy of the OHSAA Handbook is on file with the principal and athletic administrator and that I may review it its entirety, if I so choose. All OHSAA bylaws and regulations from the Handbook are also posted on the OHSAA website at ohsaa.org.

understand that an OHSAA member school must adhere to all rules and regulations that pertain to the interscholastic athletics programs that the school sponsors, but that local rules may be more stringent than OHSAA rules.

I understand that participation in interscholastic athletics is a privilege not a right.

Student Code of Responsibility

As a student athlete, I understand and accept the following responsibilities:

I will respect the rights and beliefs of others and will treat others with courtesy and consideration.

I will be fully responsible for my own actions and the consequences of my actions.

I will respect the property of others.

I will respect and obey the rules of my school and laws of my community, state and country.

will show respect to those who are responsible for enforcing the rules of my school and the laws of my community, state and country.

understand that a student whose character or conduct violates the school's Athletic Code or School Code of Responsibility is not in good standing and is ineligible for a period as determined by the principal.

Informed Consent – By its nature, participation in interscholastic athletics includes risk of injury and transmission of infectious disease such as HIV ar Hepatitis B. Although serious injuries are not common and the risk of HIV transmission is almost nonexistent in supervised school athletic programs, it is impossible to eliminate all risk. Participants have a responsibility to help reduce that risk. Participants must obey all safety rules, report all physical and hygiene problems to their coaches, follow a proper conditioning program, and inspect their own equipment daily. PARENTS, GUARDIANS OR STUDENTS WHO MAY NOT WISH TO ACCEPT RISK DESCRIBED IN THIS WARNING SHOULD NOT SIGN THIS FORM. STUDENTS MAY NOT PARTICIPATE IN AN OHSAA-SPONSORED SPORT WITHOUT THE STUDENT'S AND PARENT'S/GUARDIAN'S SIGNATURE.

I understand that in the case of injury or illness requiring treatment by medical personnel and transportation to a health care facility, that a reasonable attempt will be made to contact the parent or guardian in the case of the student-athlete being a minor, but that, if necessary, the student-athlete will be treated and transported via ambulance to the nearest hospital.

consent to medical treatment for the student following an injury or illness suffered during practice and/or a contest.

To enable the OHSAA to determine whether the herein named student is eligible to participate in interscholastic athletics in an OHSAA member school consent to the release to the OHSAA any and all portions of school record files, beginning with seventh grade, of the herein named student, specifica including, without limiting the generality of the foregoing, birth and age records, name and residence address of parent(s)or guardian(s), enrollment documents, financial and scholarship records, residence address of the student, academic work completed, grades received and attendance data.

consent to the OHSAA's use of the herein named student's name, likeness, and athletic-related information in reports of contests, promotional literature of the Association and other materials and releases related to interscholastic athletics.

understand that if I drop a class, take course work through College Credit Plus, Credit Flexibility or other educational options, this action could affec compliance with OHSAA academic standards and my eligibility. I accept full responsibility for compliance with Bylaw 4-4, Scholarship, and the passing fiveredit standard expressed therein.

understand all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. Further I understand that if my student is removed from a practice or competition due to a suspected concussion, he or she will be unable to return to participation that day. After that day written authorization from a physician (M.D. or D.O.) or another health care provider working under supervision of a physician will be required in order for the student to return to participation.

I have read and signed the Ohio Department of Health's Concussion Information Sheet and have retained a copy for myself.

I have read and signed the Ohio Department of Health's Sudden Cardia Arrest Information Sheet and have retained a copy for myself.

By signing this we acknowledge that we have read the above information and that we consent to the herein named student's participation.

*Must Be Signed Before Physical Examination

Ohio Department of Health Concussion information Sheet For Interscholastic Athletics

Dear Parent/Guardian and Athletes,

This information sheet is provided to assist you and your child in recognizing the signs and symptoms of a concussion. Every athlete is different and responds to a brain injury differently, so seek medical attention if you suspect your child has a concussion. Once a concussion occurs, it is very important your athlete return to normal activities slowly, so he/she does not do more damage to his/her brain.

What is a Concussion?

A concussion is an injury to the brain that may be caused by a blow, bump, or jolt to the head. Concussions may also happen after a fall or hit that jars the brain. A blow elsewhere on the body can cause a concussion even if an athlete does not hit his/her head directly. Concussions can range from mild to severe, and athletes can get a concussion even if they are wearing a helmet.

Signs and Symptoms of a Concussion

Athletes do not have to be "knocked out" to have a concussion. In fact, less than 1 out of 10 concussions result in loss of consciousness. Concussion symptoms can develop right away or up to 48 hours after the injury. Ignoring any signs or symptoms of a concussion puts your child's health at risk!

Signs Observed by Parents of Guardians

- Appears dazed or stunned.
- Is confused about assignment or position.
- + Forgets plays.
- + Is unsure of game, score or opponent.
- * Moves clumsily.
- + Answers questions slowly.
- + Loses consciousness (even briefly).
- Shows behavior or personality changes (irritability, sadness, nervousness, feeling more emotional).
- Can't recall events before or after hit or fall.

Symptoms Reported by Athlete

- Any headache or "pressure" in head. (How badly it hurts does not matter.)
- Nausea or vomiting.
- Balance problems or dizziness.
- + Double or blurry vision.
- ♦ Sensitivity to light and/or noise
- + Feeling sluggish, hazy, foggy or groggy.
- + Concentration or memory problems.
- Confusion.
- + Does not "feel right."
- ♦ Trouble falling asleep.
- ♦ Sleeping more or less than usual.

Be Honest

Encourage your athlete to be honest with you, his/her coach and your health care provider about his/her symptoms. Many young athletes get caught up in the moment and/or feel pressured to return to sports before they are ready. It is better to miss one game than the entire season... or risk permanent damage!

Seek Medical Attention Right Away

Seeking medical attention is an important first step if you suspect or are told your child has a concussion. A qualified health care professional will be able to determine how serious the concussion is and when it is safe for your child to return to sports and other daily activities.

- No athlete should return to activity on the same day he/she gets a concussion.
- Athletes should <u>NEVER</u> return to practices/games if they still have ANY symptoms.
- Parents and coaches should never pressure any athlete to return to play.

The Dangers of Returning Too Soon

Returning to play too early may cause Second Impact Syndrome (SIS) or Post-Concussion Syndrome (PCS). SIS occurs when a second blow to the head happens before an athlete has completely recovered from a concussion. This second impact causes the brain to swell, possibly resulting in brain damage, paralysis, and even death. PCS can occur after a second impact. PCS can result in permanent, long-term concussion symptoms. The risk of SIS and PCS is the reason why no athlete should be allowed to participate in any physical activity before they are cleared by a qualified healthcare professional.

Recovery

A concussion can affect school, work, and sports. Along with coaches and teachers, the school nurse, athletic trainer, employer, and other school administrators should be aware of the athlete's injury and their roles in helping the child recover.

During the recovery time after a concussion, physical and mental rest are required. A concussion upsets the way the brain normally works and causes it to work longer and harder to complete even simple tasks. Activities that require concentration and focus may make symptoms worse and cause the brain to heal slower. Studies show that children's brains take several weeks to heal following a concussion.

http://www.healthy.ohio.gov/vipp/child/returntoplay/concussion

Place traine to hely convides

- Be sure your child gets plenty of rest and enough sleep at night – no late nights. Keep the same bedtime weekdays and weekends.
- Encourage daytime naps or rest breaks when your child feels tired or worn-out.
- Limit your child's activities that require a lot of thinking or concentration (including social activities, homework, video games, texting, computer, driving, job-related activities, movies, parties). These activities can slow the brain's recovery.
- 4s Limit your child's physical activity, especially those activities where another injury or blow to the head may occur.
- Have your qualified health care professional check your child's symptoms at different times to help guide recovery.

Returning to Learn (School)

- Your athlete may need to initially return to school on a limited basis, for example for only half-days, at first. This should be done under the supervision of a qualified health care professional.
- 2. Inform teacher(s), school counselor or administrator(s) about the injury and symptoms. School personnel should be instructed to watch for:
 - a. Increased problems paying attention.
 - b. Increased problems remembering or learning new information.
 - c, Longer time needed to complete tasks or assignments.
 - d. Greater irritability and decreased ability to cope with stress.
 - e. Symptoms worsen (headache, tiredness) when doing schoolwork.
- 3. Be sure your child takes multiple breaks during study time and watch for worsening of symptoms.
- 4. If your child is still having concussion symptoms, he/ she may need extra help with school-related activities. As the symptoms decrease during recovery, the extra help or supports can be removed gradually.
- 5. For more information, please refer to Return to Learn on the ODH website.

PERCHAST IN THE

- Returning to play is specific for each person, depending on the sport. Staning 4, 26/13, Ohio law requires written permission from a health care provider before an athlete can return to play. Follow instructions and guidance provided by a health care professional. It is important that you, your child and your child's coach follow these instructions carefully.
- 2. Your child should NEVER return to play if he/she still has ANY symptoms. (Be sure that your child does not have any symptoms at rest and while doing any physical activity and/or activities that require a lot of thinking or concentration).
- Ohio law prohibits your child from returning to a game or practice on the same day he/she was removed.
- 4. Be sure that the athletic trainer, coach and physical education teacher are aware of your child's injury and symptoms.
- 5. Your athlete should complete a step-by-step exercise -based progression, under the direction of a qualified healthcare professional.
- 6. A sample activity progression is listed below.
 Generally, each step should take no less than 24 hours so that your child's full recovery would take about one week once they have no symptoms at rest and with moderate exercise.*

Sample Activity Progression*

Step 1: Low levels of non-contact physical activity, provided NO SYMPTOMS return during or after activity. (Examples: walking, light jogging, and easy stationary biking for 20-30 minutes).

Step 2: Moderate, non-contact physical activity, provided NO SYMPTOMS return during or after activity. (Examples: moderate jogging, brief sprint running, moderate stationary biking, light calisthenics, and sport-specific drills without contact or collisions for 30-45 minutes).

Step 3: Heavy, non-contact physical activity, provided NO SYMPTOMS return during or after activity. (Examples: extensive sprint running, high intensity stationary biking, resistance exercise with machines and free weights, more intense non-contact sports specific drills, agillty training and jumping drills for 45-60 minutes).

Step 4: Full contact in controlled practice or scrimmage.

Step 5: Full contact in game play.

*If any symptoms occur, the athlete should drop back to the previous step and try to progress again after a 24 hour rest period.

Ohio Department of Health Concussion Information Sheet

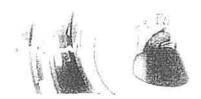

For Interscholastic Athletics

I have read the Ohio Department of Health's Concussion Information Sheet and understand that I have a responsibility to report my/my child's symptoms to coaches, administrators and healthcare provider.

I also understand that I/my chil	d must have no symptoms before return to play can
occur.	4

Sudden Cardiac Arrest and Lindsay - Luni Parent/Athlete Signature Form

What is Lindsay's Law? Lindsay's Law is about Sudden Cardiac Arrest (SCA) in youth athletes. It covers all athletes 19 years or younger who practice for or compete in athletic activities. Activities may be organized by a school or youth sports organization.

Which youth athletic activities are included in Lindsay's law?

- Athletics at all schools in Ohio (public and non-public)
- Any athletic contest or competition sponsored by ar associated with a school
- All interscholastic athletics, including all practices, interschool practices and scrimmages
- · All youth sports organizations
- · All cheerleading and club sports, including noncompetitive cheerleading

What is SCA? SCA is when the heart stops beating suddenly and unexpectedly. This cuts off blood flow to the brain and other vital organs. People with SCA will die if not treated immediately. SCA can be caused by 1) a structural issue with the heart, OR 2) an heart electrical problem which controls the heartbeat, OR 3) a situation such as a person who is hit in the chest or a gets a heart infection.

What is a warning sign for SCA? If a family member died suddenly before age 50, or a family member has cardiomyopathy, long QT syndrome, Marfan syndrome or other rhythm problems of the heart.

What symptoms are a warning sign of SCA? A young othlete may have these things with exercise:

- · Chest pain/discomfort
- Unexplained fainting/near fainting or dizziness
- Unexplained tiredness, shortness of breath or difficulty breathing
- · Unusually fast or racing heart beats

What happens if an athlete experiences syncope or fainting before, during or after a practice, scrimmage, or competitive play? The coach MUST remove the youth athlete from activity immediately. The youth athlete MUST be seen and cleared by a health care provider before returning to activity. This written clearance must be shared with a school or sports official.

What happens if an athlete experiences any other warning signs of SCA? The youth athlete should be seen by a health care professional.

Who can evaluate and clear youth athletes? A physician (MD or DO), a certified nurse practitioner, a clinical nurse specialist, certified nurse midwife. For school athletes, a physician's assistant or licensed athletic trainer may also clear a student. That person may refer the youth to another health care provider for further evaluation.

What is needed for the youth athlete to return to the activity? There must be clearance from the health care provider in writing. This must be given to the coach and school or sports official before return to activity.

All youth athletes and their parents/guardians must review information about Sudden Cardiac Arrest, then sign and return this form.

Ohio High School Athletic Association 4080 Roselea Place Columbus, Ohio 43214 614-267-2502 www.ohsaa.org

OHIO HIGH SCHOOL ATHLETIC ASSOCIATION ACKNOWLEDGEMENT AND PLEDGE

All participants in the interscholastic athletic programs in OHSAA member schools have an important role to play in keeping other students within the school, their opponents and their community members safe by doing their part to stop the spread of COVID-19. As a student-athlete in an OHSAA member school, I know that I must take steps to stay well in order to protect others and promote a safe return to school and full participation for all student athletes in my school. Because of this challenge, I pledge to take responsibility for my own health and help stop the spread of the COVID-19.

The Ohio High School Athletic Association's highest priority is the safety of all member school students, faculty, staff, and spectators. I know that by engaging in school activities, including attending classes, pursuing my education, eating in the school cafeteria, attending activities, participating in sports and recreation, I may be exposed to COVID-19 and other infections. I also understand that despite all reasonable efforts by my school, I can still contract COVID-19 and other infections. In order to reduce my risk, I agree to be an active participant in maintaining my own health; wellbeing and safety, as well as the safety of others, by following all the guidelines and expectations outlined by my school.

As more information is gathered and known, I understand that the OHSAA and my school, via its Board of Education or governing board, may modify these guidelines and expectations. It is my responsibility to make every effort to keep myself apprised of these changes to protect myself and my school community.

It is my school pledge to protect myself, my peers, and my entire community by doing the following:

- I agree to testing for COVID-19 and potential subsequent self-quarantining if I am identified as a contact of anyone who has been determined to be positive for COVID-19.
- If I test positive for COVID-19, I agree to self-quarantine in a designated location until:
 - My symptoms have resolved, and
 - o It has been at least ten days since the start of my symptoms, and
 - o I have a negative COVID-19 test result.
- I agree to timely report any known or potential exposures to COVID-19 to the school administration and athletic training/medical staff.
 - Monitor for the following symptoms:
 - o A fever of 100.4°F or higher
 - Respiratory symptoms, such as dry cough or shortness of breath
 - Sore throat
 - o Headache
 - Body aches
 - o Chills
 - Loss of taste or smell

- If I develop the above symptoms, I agree to contact my athletic trainer or another medical practitioner, and to follow the medical staff's instructions which may include being tested for COVID- 19 and self-quarantining while the test results are pending, and/or being evaluated by the athletic training staff.
- Stay at home if I am feeling sick.
- Get a flu vaccination.(as recommended by the CDC in the immunization schedule for adolescents)
- Participate fully and honestly with the administrative and/or athletic training staff for contact tracing to determine whom I might have potentially exposed to COVID-19.
- Wear a mask or the appropriate PPE in all public spaces.
- Practice physical distancing as much as possible.
- Frequently wash and/or sanitize my hands.
- Keep my personal space, shared common space, and my belongings clean.

I understand COVID-19 is a highly contagious virus, and it is possible to develop and contract the COVID-19 disease, even if I follow all the safety precautions above and those recommended by the CDC, local health department, and others. I understand that although my school is following the coronavirus guidelines issued by the CDC and other experts to reduce the spread of infection, I can never be completely shielded from all risk of illness caused by COVID-19 or other infections.

I have read, understand, and agree to comply with this pledge above. I also acknowledge that these expectations and pledge are a condition of my participation in interscholastic athletics and that any failure to comply with this pledge above may lead to immediate removal of athletic participation privileges and/or the inability to use athletic facilities.
