### Summer Reading

"Research has shown that one of the most effective ways to reduce a "summer slide" in learning is to READ! It's a way to keep your child thinking, while enjoying a good story at the same time. Give your child a chance to find something to read that he/she will enjoy. Take them to the public library to pick out a good book or provide them with the opportunity to read a magazine or newspaper. Take advantage of e-readers or they can even read on their phones! Just the simple act of reading can make such a HUGE impact and we encourage all of our students to read over the summer break!"
